

NMTTC VISION QUALIFICATION FORM

Please be advised that _____

meets the requirements of section A.7.6 below.

does not meet the requirements of section A.7.6 below.

A.7 Vision Requirements

- A.7.1 Vision testing is a prerequisite for initial training and retraining. Vision testing is not required for ESD training or ESD certification unless required by the local ESD Control Program.
- A.7.2 Vision screening shall be performed within twenty-three (23) months of the training or retraining start date as a prerequisite for NASA workmanship standards training.
- A.7.3 Vision requirements may be met with corrected vision (eyeglasses or contact lenses).
- A.7.4 Vision tests shall be administered a minimum of once every two years by a qualified examiner using standard instruments and techniques.
- A.7.5 Documentation indicating that minimum visual requirements have been met shall be made available to training centers or instructors when students register for workmanship training.
- A.7.6 **Vision testing shall verify the following:**

- a. Near Vision. Jaeger 1 at 14 inches (355.0 mm), reduced Snellen 20/20, or equivalent approved testing methods.
- b. Color Vision. Ability to distinguish red, green, blue, and yellow colors as prescribed in Dvorine Charts, Ishihara Plates, AO-HRR Tests, or equivalent approved testing methods. A practical test, using color coded wires or electrical parts, is acceptable for color vision testing.

Signature of the Qualified Examiner

Date of Exam
